

Self-Service Coin Deposit System CD-Master

Highest coin processing speed and four coin fill bags are the outstanding criteria of the CD-Master. By means of highest robustness against foreign bodies and direct account transfer of the deposited coins' sum the CD-Master is an unbeatable reassessment of every self-service area. CD-Master can be placed free-standing or through the wall.

- 1 **HIGH PERFORMANCE COIN DEPOSIT SYSTEM**
- 2 **REAL 24-HOURS SELF-SERVICE OPERATION**
- 3 **24-HOURS NIGHT VAULT REPLACEMENT**
- 4 **DIRECT TRANSFER/NETWORK CONNECTION**
- 5 **ROBUSTNESS AGAINST FOREIGN BODIES**
- 6 **15 INCH TOUCHSCREEN**
- 7 **4 COIN FILLING BAGS**
- 8 **COIN ESCROW**
- 9 **WALL MOUNTING POSSIBLE**
- 10 **THROUGH-THE-WALL OPTION**

Patented vertical coin conveying provides maximum robustness against foreign bodies. Upgraded to full compliance with Art. 6. EC 1338/2001 for coin (and banknote) treatment, all systems achieve real 24-hours operation in self-service areas.

CD-Master

The CD-Master is the ideal solution for self-service mass coin deposits. Thanks to its compactness the system may be easily post-integrated into given architectural environments. It may be positioned as a stand-alone or as a through-the-wall solution. The innovative coin module from NOVOTECH fulfills customers' requirement for maximum performance, counting accuracy and reliability. Especially in the problematic field of the coin deposit where a high reliability is indispensable a technological high-end solution is required. NOVOTECH's patented* technology of the vertical coin conveying warrants reliability for real 24h self-service operation.

In comparison to the traditional coin counting technology the vertical conveying bases on a non-chaotic vertical coin conveying against gravity, therefore, an extreme high robustness against foreign bodies can be promised. Because of the optional computer network connectivity the amount deposited can be transferred directly to the customers' accounts.

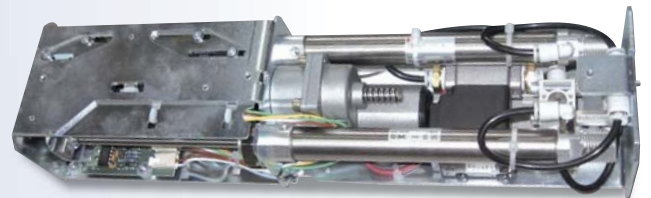

Clipboard for Bags

Product Specification

Housing Variants	Lobby / TTW
Emptying	Front / Rear
Servicing	Front
Network Connectivity	semi / full-online
Coin Deposit	●
Coin Counting Performance	< 1.000 per min.
Automatic Coin Insert Shutter	●
Automatic Coin Filling Containers	4
Receipt Printer	●
Coin Escrow Unit	●
Touchscreen (15")	●
Card Reader, motor driven, track 2/3	●
Network-PC with mirrored discs	●
Automatic compressed air cleaning	●
UPS	○
Art. 6. EC 1338/2001 for Coins	○
Housing Dimensions B x T x H (mm)	730 x 770 x 1.210

● Option Included ○ Option Against Extra Charge

Compressed Air Generator „One Air Blast“
(Encapsulated Maintenance-Free System)
